DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This house is located at St. James; Maryland, on the north side of College Road, facing south in Washington County, Maryland. It is a one and a half story, three bay painted brick structure resting on low fieldstone foundations. Modern additions are attached to the end walls. The upper half story of the house is largely rebuilt but the main story retains its original finishing.

The walls display American bonding at all elevations with six courses of stretcher bricks between header rows. Flat arches are present above the openings of the original parts. Window frames are narrow and finished with a bead at the inside edge. At the first story, nine over six pane sashes are used while at the upper level modern casements have been installed. Three gable roofed dormers project from each slope of the roof.

The roof extends some distance beyond the front and rear walls forming deep porches on both sides of the building.

The main entrance is located in the center bay of the front elevation. Above the door is four light transom. The rear entrance is located opposite this.

The interior of the house is bisected by a broad stair and entrance hall. The stair has a large round newel with a convex profile and matching round balusters. Door and window trim consists of plain architraves, some with pointed top pieces. Corner blocks are located at the bottom of the door architraves and in some rooms at the top as well. The mantel piece in the parlor has an architrave around the opening with short pilasters above it supporting the mantel shelf.

Near the house is a small frame outbuilding or garden house with a recently replaced wood shingle roof.

The house is in excellent condition and stands on a lot containing 2.13 acres.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

The architectural features of this one and a half story brick house suggest a building date during the third quarter of the 19th century. Greek Revival influence is apparent by the interior woodwork design.

According to Washington County Land Records, the property, containing slightly more than 10 acres, was purchased by George Febrey, Sr. from John S. Rowland in 1867, (IN18/569). John S. Rowland owned a sizable amount of land in the St. James vicinity. The deed made reference, also to land already owned by Febrey adjoining that which he purchased in 1867.

It cannot be determined from information available at present whether the house was built by John Rowland or George Febrey. If it was built during John Rowland's ownership, it is apparent that he did not live there.

The house descended through the Febrey family until 1943 when, in equity court proceedings it was conveyed to Ella B. Stonebraker (224/112). It was purchased by the present owner in 1962.
